# APHIS eFile

Last Modified:

APHIS eFile is the online system for users to apply for and receive import, interstate movement, transit, release permits, apply for permit renewals and amendments, submit annual reports, and receive regulatory guidance.

[Visit APHIS eFile](#)

ePermits is APHIS' legacy permitting system, and as of September 30, 2022, APHIS no longer accepts new permit applications or issue renewals through ePermits. All active permits issued through ePermits will remain valid and eligible for amendment until permit expiration. APHIS will not transfer ePermit data to the APHIS eFile system. You will need to submit a new application in APHIS eFile when any of your ePermits permits expire.

## Application Form

## Application Name

<b>BRS/APHIS 2000 (Web) Application</b>	Permit for importation, interstate movement, or environmental release of certain genetically engineered (GE) organisms
