Funding Opportunities

Last Modified:

APHIS leads efforts to keep U.S. plants and animals healthy. Each year, we distribute millions of dollars to producer organizations, State and Federal agencies, Native American Tribes, universities, and others nationwide to support projects that help strengthen our Nation's safeguarding system and prevent, control, or mitigate pests or diseases.

Get Ready To Apply!

Before you can apply for Federal funding, your organization must be registered with the U.S. Government System for Award Management (SAM). Don't wait! It takes at least 10 business days for new registrations to process.

Learn more about the basics of our funding process and [how you can get ready to apply](#).

Our Funding Programs

APHIS funding opportunities are available at various times throughout the year. Use the links below to learn more about each opportunity.

[Antimicrobial Resistance Dashboard Funding Opportunities](#)

Funding is available to develop antimicrobial resistance (AMR) dashboards that improve access to information on AMR in livestock, poultry, and companion animals.

Chronic Wasting Disease Management and Response Funding Opportunities

Funding is available for projects that help States, Tribes, universities, and others control chronic wasting disease in wild and farmed cervids, such as deer and elk.

Plant Pest and Disease Management and Disaster Prevention Program

Funding is available for projects that strengthen and safeguard our Nation's agricultural infrastructure by preventing, detecting, and mitigating invasive plant pests and diseases.

National Animal Disease Preparedness and Response Program

Funding is available for projects that help States, Tribes, producers, and others prevent, prepare for, and respond to high-consequence animal disease outbreaks.

National Animal Health Laboratory Network Funding Opportunities

Funding is available for projects that enhance the early detection of high-consequence animal diseases and improve emergency response capabilities in veterinary diagnostic laboratories that are part of the network.

National Clean Plant Network

Funding is available for projects that expand or create new clean plant centers capable of producing and maintaining disease-free plant material for U.S. specialty crop producers.
