

Map of the *Great Lakes*. Depicts maritime ports of entry for commercial vessels that may be subject to a lower commercial vessel user fee.

The Animal and Plant Health Inspection Service (APHIS) defines the Great Lakes as “the Great Lakes of North America and the waters of the St. Lawrence River west of a rhumb line drawn from Cap de Rosiers to West Point, Anticosti Island, and west of a line along 63° W. longitude from Anticosti Island to the north shore of the St. Lawrence River” as shown in Figure 1. This currently includes the ports of entry shown in Table 1, which are described in U.S Customs and Border Protection (CBP) regulations in [19 CFR 101.3](#). APHIS Great Lakes definition aligns with how the United States Coast Guard regulations in [46 CFR 42.05-40](#) define the Great Lakes.
