March 2025	37	0	26696
April 2025	35	0	26731

There were 8 surveillance inspections conducted at 7 different sites for a total of 35 fish sampled this month. Samples are targeted to moribund and fresh mortalities. The water temperatures continued to increase in response to warmer air temperatures. Routine harvest continued. Stocking of new smolts began. Two sites were classified as Category 2b and conducted biweekly surveillance. All other sites with fish in the water remained Category 1 and were scheduled for monthly sampling.
