December 2022	69	0	25402
January 2023	100	0	25502
February 2023	74	0	25576
March 2023	35	0	25611
April 2023	59	0	25670

There were 9 surveillance inspections conducted at 7 different sites for a total of 59 fish sampled this month. Samples are targeted to moribund and fresh mortalities. The water temperatures began to increase in response to warmer air temperatures. Routine harvest continued and spring stocking began. The single Category 2 site continued biweekly sampling. All other sites with fish in the water remained Category 1 and were scheduled for monthly sampling.
