

February 2024

Date	Number of Samples	Confirmed Positive Cages	Cumulative Program Samples
March 2023	35	0	25611
April 2023	59	0	25670
May 2023	60	0	25730
June 2023	55	1	25785
July 2023	60	0	25845
August 2023	50	0	25895
September 2023	45	0	25940
October 2023	45	0	25985
November 2023	45	0	26030
December 2023	45	0	26075
January 2024	45	0	26120
February 2024	40	0	26160

There were 8 surveillance inspections conducted at 8 different sites for a total of 40 fish sampled this month. Samples are targeted to moribund and fresh mortalities. The water temperatures continued to decrease in response to colder air temperatures. Routine harvest continued. All sites with fish in the water remained Category 1 and were scheduled for monthly sampling.
