April 2023	59	0	25670
May 2023	60	0	25730

There were 11 surveillance inspections conducted at 9 different sites for a total of 60 fish sampled this month. Samples are targeted to moribund and fresh mortalities. The water temperatures continued to increase in response to warmer air temperatures. Routine harvest and spring stocking continued. The single Category 2 site was reclassified as Category 1. All other sites with fish in the water remained Category 1 and were scheduled for monthly sampling.
