There were 9 surveillance inspections conducted at 9 different sites for a total of 93 fish sampled this month. Samples are targeted to moribund and fresh mortalities when possible. The water temperatures continued to decrease in response to colder air temperatures. Eight of the 9 sites with fish in the water remained Category 1 and were scheduled for monthly sampling. One site was classified as Category 2 (suspect) and further testing is ongoing. No cages were confirmed positive this month.
