* Based on all NVSL-confirmed cases as of September 1, 2024. (i.e. could change before these FY 25 minimums go into effect)

** Sampling Stage 1 minimums are set at 1.5 times the equivalent population size in Stage 2 and are based on the same % of population for all of the states in the same stage.

*** Since FY 2023 we are capping the annual increase at 10% over the prior FY minimums or the actual number collected in the prior FY, whichever is greater.

¹ Source: NASS Sheep and Goats, Jan 31, 2023. Green fill indicates the 2023 population was retroactively revised upward in 2024 NASS estimates, yellow fill indicates a downward 2023 population revision.

² Source: NASS Sheep and Goats, Jan 31, 2024

³ Adjusted to 81% of original minimums due to COVID 19 restrictions

⁴ Adjusted to 74% of original minimums due to COVID 19 restrictions

[^] Met sampling requirement to move to stage 2 by sampling over 3,000 since the last positive was found.
