

2020 Deputy Administrator's Safe Trade Award: U.S. China Phase I Trade Agreement

The U.S. China Phase I Trade Agreement Team received the first ever Deputy Administrator's Safe Trade Award for their valuable contributions finalizing the phytosanitary requirements for U.S. agricultural exporters, opening eight markets to China worth nearly \$1 billion. Furthermore, by innovating virtual alternatives to in-person bilaterals and site visits/inspections, the Team successfully achieved the Administration's goal during a global pandemic. This innovation is now a standard, allowing for increased bilateral engagement with trading partners and continued business for U.S. exporters.
